

JOURNEY MANAGEMENT

Journey Management Centre (JMC)

Our JMC provides real time monitoring of our clients complete with provision of an audit trail via the TSU Protect App. Communication between our clients, partners, Journey Management Centre, security drivers and Close Protection Officers are of utmost importance, not only in the event of an emergency to facilitate fast and effective emergency response coordination, but at all times to guarantee professional service delivery. Security officers also report regularly via mobile systems, radio communication and e-mail to the JMC to ensure constant communication between all the different units.

The Journey Management Center is responsible for dispatching Tactical and or Medical teams to alerts from alarms and panics. Advanced vehicle tracking ensures monitoring of all vehicles traveling between hotels, airports, meetings, etc. Again, a full audit trail is provided.

TSU International Journey management has many years of experience in security co-ordination and maintains a strong support network and healthy relations throughout Africa. Our members deal with security emergencies almost daily. Our capabilities include contingency planning, intelligence gathering, evacuation and or medical assistance.

Agents Professionally Trained

All service providers are carefully screened, selected, and trained in a variety of safety and security techniques and are in constant contact with our 24-hour Journey Management Centre for security alerts and deployment of additional support. TSU International is a well-established brand to many people in the corporate and mining industries throughout Africa.

TSU International is a professional firm that, amongst other aspects, regularly handles protection of dignitaries and high-profile personalities. We employ highly trained specialists and will be providing on ground personnel to protect your assets and people.
